

## **LOFAR MKSP Annual Meeting**

18-22 September 2017

Department of Physics, University of Rijeka, Croatia

### **Monday, 18 September 2017**

9:30-9:40	Vibor Jelic	Welcome and Logistics
9:40-10:00	George Heald	MKSP project overview and updates
10:00-10:30	Marta Alves	MSSS All-sky Polarisation Survey (MAPS)
10:30-11:00	Roberto Pizzo	LOFAR: current status and future perspectives
11:00-11:30	<i>Coffee Break</i>	
11:30-11:50	Vibor Jelic	Faraday tomography of the interstellar medium - an update
11:50-12:10	Charlotte Sobey	Using low-frequency pulsar observations to study the 3-D structure of the Galactic magnetic field
12:10-12:30	Cathy Horellou	Reliable detection and characterisation of polarized source in the LOFAR M51 field
12:30-1:00	Shane O'Sullivan	Broadband spectropolarimetry with the MWA
1:00-2:00	<i>Lunch Break</i>	
2:00-2:30	David Mulcahy	Status of deep polarisation observations of GOODS-North
2:30-2:50	Alex Clarke	Giant Radio Galaxies
2:50-3:10	Valentina Vacca	Magnetization of the large-scale structure with the SRT
3:10-3:30	Rosita Paladino	ALMA dust polarization in M83
3:30-4:00	<i>Coffee Break</i>	
4:00-4:20	Błażej Nikiel-Wroczyński	My name is Legion, for we are many: studying the galaxy groups with LOFAR
4:20-4:40	Julia Piotrowska	Low-frequency spectra of nearby galaxies
4:40-5:00	George Heald	Magnetic fields and cosmic ray propagation in the edge-on galaxy NGC 5775
5:00-5:30	All	Discussion: Planning for the coming week

**Tuesday, 19 September 2017**

9:00-5:30	All	Busy Day activities
7:00	Location TBD	Workshop dinner

**Wednesday, 20 September 2017**

9:00-5:30	All	Busy Day activities
Time TBD	Council + remote	MKSP Management Council meeting

**Thursday, 21 September 2017**

9:00-5:30	All	Busy Day activities
-----------	-----	---------------------

**Friday, 22 September 2017**

9:30-10:00	All + remote	Business Meeting
10:00-5:30	All	Busy Day activities
